WE ARE HIRING

STUDENT WORKER: PROGRAMMING COURSE ASSISTANCE

Position Summary

The Programming Course Assistant will support the Python Scripting in Cybersecurity CYBV 312 course. The assistant will work closely with course instructors to help students understand fundamentals programming concepts, debug code, and provide 1:1 assistance. This role involves providing hands-on support during class sessions, holding office hours for additional student assistance, and contributing to the overall learning experience of the students.

This position will pay $15 per hour up to 20 hours per week. Must be a current U of A student enrolled in a minimum of 6 units. Must be eligible to work in the United States.

Requirements

- Proficiency in Python programming and familiarity with introductory programming concepts
- Ability to troubleshoot and debug code effectively, helping students overcome technical challenges
- Strong verbal and written communication skills to explain complex concepts in an accessible manner
